

We are fortunate to be a resident in a community served by K-LOVE. We are the parents of three pre-teen children. Until K-LOVE came to Topeka, KS, our children did not listen to the radio much because we did not like the negative influence of secular stations. We are also fortunate to have KBUZ (90.9) and KJOI (88.1), but my children wanted an all-music station like the secular counter parts. K-LOVE is our children's favorite station.

My wife is a Jr. High teacher and many of her students listen to K-LOVE. Even friends of ours who had not listened to Christian programming before, now listen to K-LOVE.

K-LOVE's slogan of "positive, encouraging K-LOVE" is exactly what it is. Having this kind of an alternative is critical to the well-being of our children, youth, adults and families. Please do not expand LPFM stations to the point they would take priority over current FM translator service. There is tremendous value in stations like K-LOVE. There are enough alternatives on FM that does not have family-friendly programming. K-LOVE is making a very positive impact in many homes in our community, and especially in our home. Thank you.
